

Date: 26 September 2026

To: Jobins Thomas & Vipin

Company: Izin Designs Interior Studio

ROLE: Performance & Digital Marketer

DATE OF JOINING: 01 May 2026

AGREED SALARY: ₹17,000 / month

RESIGNATION: Please accept this letter as my formal resignation from the position of Performance & Digital Marketer, effective 26 September 2026.

REASON: I am resigning due to the continued delay in salary payments, which has created serious financial difficulties and affected my ability to meet my personal financial commitments.

ISSUES FACED: Salary payments have been repeatedly delayed, and the cheques issued towards salary have also failed to clear. This has resulted in pending EMIs and other financial obligations.

HANDOVER: I have compiled the required work handover, including work details, account logins, and the final record of 93 leads generated during my tenure.

PENDING SALARY: I request the immediate settlement of my pending salary for the previous month and the pro-rated salary for the current month up to 26 September 2026, calculated according to the official attendance and work records.

WORK SUMMARY & CAMPAIGN RESULTS

Execution deliverables, advertising ROI, and verified lead generation.

1. WHAT I MANAGED

- Meta Ads:** Setup and management of paid campaigns via Facebook & Instagram.
- Google Ads:** Search & Display campaigns and Google Business Profile optimization.
- Domain & Infrastructure:** Domain setup, SSL provisioning, and custom email routing.
- Website & Hosting:** Web hosting administration, database management, and mobile responsiveness.
- Social Media:** Creating posters, ad copies, and publishing.

CRITICAL NOTICE: Website Hosted on Personal Server (₹800/month)

The company website is currently hosted on my personal Hostinger server. I migrated it to reduce company billing and perform advanced technical optimizations (SEO, Google Visibility, and Mobile Responsiveness). The site will remain active temporarily to ensure zero downtime, but management must provision their own server and execute a migration immediately.

Total Leads Generated: 93 Leads
